

*In June this year, on one Sunday, Pastor David requested me to look into how we can revamp our Church website. I must confess then I was reluctant due to my work commitment. The next day, Monday, when I was in my office, my regular Christian email subscription had this banner that read “Engage More People. Grow Your Church. Your Website is your #1 Communication Tool.” I was stunned and did not know how to react. Very soon, I was distracted by my meeting and work schedules and forgotten about the banner message. Come Sunday again, our Pastor urged me to take a look at our Church website; I must admit I was not at ease as it felt like God is reminding me of the banner message. I simply gave him a smile and did not give him a Yes or a No answer. Then came Monday morning, the Lord again through the same Christian email subscription spoke to me through another banner which read “ Have you ever thought through your Church website more people can come to know Jesus?” This time I spoke to the Lord, “Lord, you know my working motto is if I want to do something, I will give it my best, if not I would not take it up. I’ll do it but I need your help with my already much stretched time and I need a lot of strength cos’ I can only worked at the website late at night. When Pastor David approached me again, I confidently replied” I will do it. “ Work on the website began in July’09 ,what you see now, the Church of Sengkang website, the templates, the colours, the pictures, the write-ups, the icons, the bible verses etc..Is the work of the Holy Spirit. All I can say is Wow! All Glory and Honour to my Jehovah God!*
